

## **FEDERAL COMMUNICATIONS COMMISSION**

**[OMB 3060-1265; FR ID 99060]**

### **Information Collection Being Reviewed by the Federal Communications Commission**

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

**DATES:** Written PRA comments should be submitted on or before **[INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]**. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Nicole Ongele, FCC, via email [PRA@fcc.gov](mailto:PRA@fcc.gov) and to [nicole.ongele@fcc.gov](mailto:nicole.ongele@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Nicole Ongele, (202) 418-2991.

**OMB Control Number:** 3060-1265.

**Title:** Connect America Fund – Performance Testing Measures.

**Form Number:** N/A.

**Type of Review:** Extension of a currently approved collection.

**Respondents:** Business or other for-profit.

**Number of Respondents and Responses:** 1,677 unique respondents; 4,196 responses.

**Estimated Time per Response:** 16 hours - 60 hours.

**Frequency of Response:** Biennial reporting requirements, quarterly reporting requirements and annual reporting requirements.

**Obligation to Respond:** Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151-154, 155, 201-206, 214, 218-220, 251, 252, 254, 256, 303(r), 332, 403, 405, 410, and 1302.

**Total Annual Burden:** 164,526 hours.

**Total Annual Cost:** No Cost.

**Privacy Act Impact Assessment:** No impact(s).

**Nature and Extent of Confidentiality:** We note that the Universal Service Administrative Company (USAC) must preserve the confidentiality of certain data obtained from respondents; must not use the data except for purposes of administering the universal service programs or other purposes specified by the Commission; and must not disclose data in company-specific form unless directed to do so by the Commission. Materials or information submitted to the Commission or the Administrator will be confidential and not be available to the public.

**Needs and Uses:** In the *USF/ICC Transformation Order*, the Commission laid the groundwork for today's universal service programs providing \$4.5 billion in support for broadband Internet deployment in high-cost areas. *Connect America Fund, et al.*, Report and Order and Further Notice of Proposed Rulemaking, WC Docket No. 10-90, et al., 26 FCC Rcd 17663 (2011) (*USF/ICC Transformation Order*). The *USF/ICC Transformation Order* required, among other things, that high-cost universal service recipients "test their broadband networks for compliance with speed and latency metrics and certify to and report the results to the Universal Service Administrative Company (USAC) on an annual basis." *Id.*

at 17705, para. 109. Pursuant to the Commission’s direction in that Order, the Wireline Competition Bureau, the Wireless Telecommunications Bureau, and the Office of Engineering and Technology (the Bureaus and OET) adopted more specific methodologies for such testing in the *Performance Measures Order*. See generally *Performance Measures Order*. See also 47 C.F.R. § 54.313(a)(6) (requiring that recipients of high-cost support provide “[t]he results of network performance tests pursuant to the methodology and in the format determined by the Wireline Competition Bureau, Wireless Telecommunications Bureau, and Office of Engineering and Technology”).

This collection includes requirements for testing speed and latency to ensure that carriers are meeting the public interest obligations associated with their receipt of high-cost universal service support. Carriers will identify, from among the locations they have already submitted and certified in USAC’s High Cost Universal Broadband (HUBB) portal, the locations where they have an active subscriber (deployment locations are reported under OMB Control Number 3060-1228, and active locations will be reported under this control number). From those subscriber locations, USAC will then select a random sample from which the carrier will be required to perform testing for speed and latency. Carriers that do not provide location information in the HUBB will use a randomization tool provided by USAC to select a random sample of locations for testing. The carrier will then be required to submit to USAC the results of the testing on an annual basis. The annual filing will include the testing results for each quarter from the prior year. The carrier’s sample for each service tier (e.g. 10 Mbps/1 Mbps, 25 Mbps/1 Mbps) shall be regenerated every two years. During the two-year cycle, carriers will have the ability to add and remove subscriber locations if necessary, e.g., as subscribership changes. This information collection addresses the burdens associated with these requirements.
